

Marcus Vance

DEVOPS & SITE RELIABILITY ENGINEER (SRE)

Email: marcus.vance@example.com Phone: (555) 701-4920 Location: Denver, CO

LinkedIn: linkedin.com/in/mvance-devops

Site Reliability Engineer with 6+ years experience automating infrastructure, scaling cloud platforms, and ensuring 99.99% uptime for enterprise application clusters. Specialist in Kubernetes, IaC (Terraform), and Observability.

TECHNICAL COMPETENCIES

Cloud Platforms: AWS, Google Cloud Platform (GCP), Azure

Containerization: Docker, Kubernetes, Helm, Istio Service Mesh

IaC & CI/CD: Terraform, Ansible, GitHub Actions, GitLab CI, ArgoCD

Monitoring: Prometheus, Grafana, Datadog, ELK Stack, PagerDuty

EXPERIENCE

Senior SRE — CloudGuard Technologies

2021 – Present

- Maintained multi-region Kubernetes (EKS) clusters supporting over 120 microservices with 99.99% availability.
- Automated cloud infrastructure provisioning using Terraform and Helm, cutting environment setup time from 3 days to 20 minutes.
- Implemented automated GitOps workflows via ArgoCD, standardizing continuous deployment across production environments.
- Reduced monthly AWS infrastructure expenditure by \$35,000 through spot instance usage and resource right-sizing.

DevOps Engineer — DataStream Operations

2018 – 2021

- Built centralized logging and monitoring pipelines using Elasticsearch, Logstash, Kibana (ELK), and Grafana.
- Engineered automated disaster recovery failover procedures, achieving a Recovery Time Objective (RTO) under 5 minutes.

CERTIFICATIONS & CREDENTIALS

Certified Kubernetes Administrator (CKA) — Cloud Native Computing Foundation (CNCF)

Issued Jul 2023

AWS Certified Solutions Architect – Professional — Amazon Web Services

Issued Nov 2022

HashiCorp Certified: Terraform Associate — HashiCorp

Issued Jan 2021

EDUCATION

B.S. in Information Technology — Colorado State University

2014 – 2018
